SKILLS

PROGRAMMING

Over 5000 lines:

- Java

Over 1000 lines:

- SQL Server
- HTML
- CSS
- Javascript

TECH STACK

Currently Working on:

- Java Enterprise Edition
- HHS NextGen Framework
- Batch Processing Using bash scripting

Familiar:

- React
- Spring Boot And Hibernate
- REST and GraphQL

COURSEWORK

UNDERGRADUATE

Digital Signal Processing
Power Electronics
Neural Networks And Fuzzy Logic
Data Structures And Algorithms
Network Technologies

EXPERIENCE

DELOITTE | BUSINESS TECHNOLOGY ANALYST

Aug 2018 – Present | Mumbai, India

- Worked on Integrated Eligibility, which provides solution in the form of a enterprise grade web application for giving Medicaid to the people in the State Of Louisiana, USA for below property line/ aged people
- Created batches in the solution which sends out notices in the form of emails and faxes to the Providers (the ones tied up with State Of Louisiana for providing Medicaid), informing them about the monetary benefits to be provided to the applicant
- Got applause for cleaning out bugs which affected more than 30000 applicants in the solution

SIDE PROJECT

PROJECT MANAGEMENT APPLICATION

- Currently working on creating a web application for Project Management Application using below tech stack:
 - React
 - Spring Boot and Hibernate
 - REST and GraphQL

SIDE COURSES (UDEMY)

- Easy To Advanced Data Structures
- Graph Theory Algorithms
